Tragic Death of Blairmore Boy from Gasoline Burns

Arthur Hadwell, aged 13 years, son of Mr. and Mrs. Tom Hadwell of Blairmore, and well known as a soprano singer, died early on Tuesday morning in Dr. Stewart's hospital, from burns received Monday evening when he used gasoline by mistake in attempting to ignite a fire in a cookstove at the farm of Mr. Parry, 12 miles northwest of Cowley. The nearest witness of the tragedy was a Doukhoboi hired man working near the house, who heard the report of the gasoline can exploding. It is reported that the boy, when the gasoline ignited, rushed outside and that the explosion scattered the burning gasoline over his clothes. When the hired man reached him he had dragged himself to a nearby creek, but his clothing was so badly charred that little was left, while his body was so badly burned that little hope was held for his life.

The Parrys had driven to Blairmore to do some shopping, and invited the boy to accompany them, but he was so interested in some carpenter work that he remained.

Mr. and Mrs. Jas. Ford left on Saturday for a vacation at Victoria and Vancouver.

Steve Leosky and a party of land seekers started out for Peace River district, but had roads compelled them to turn back at Athabasca Landing, and they returned on Wednesday.

Julius Cunningham's Funeral

On Sunday afternoon Julius Cunningham, miner, aged 42 years, was buried in Coleman cemetery, members of the Orange Lodge, the Mine Workers Union and the Canadian Legion attending. The service was held in the United church. The Citizens band headed the procession playing the Dead March. The coffin was covered with a Union Jack, and the "Last Post" was sounded at the graveside.

Deceased had been in Canada about nine months, and is survived by a wife and seven children living in Scotland. He had worked in the International mine, and left here on July 27 to work at Coalhurst. He was taken ill with pneumonia there, and on Aug 4 he was sent by train to Coleman; arriving here in a weak condition and hardly able to stand. He was immediately admitted to hospital and lingered for five days, in a semi-conscious condition, death occurring on Thursday last at 7 p. m.

Mr. and Mrs. Matthew Wilson, who knew the deceased when he was a lad, on behalf of his family, wish to thank the Orange Lodge, the Miners Union and the Canadian Legion for their services at the funeral, and the hospital staff for their ministrations.

H. V. Hummel, secretary of International Coal & Coke Co., Ltd., is at present in Calgary, where he underwent an operation. He is expected to return in about ten days.

C.P.R. Champion Sheep

Canadian Pacific flock of Suffolk sheep at Tilley, Alta.—there are 300 of them—have been sweeping the board in western stock exhibitions lately. Against strong competition at the Saskatoon Exhibition they won every first prize and every championship. Also shown in above is the C.P.R. champion Hampshire ram which took first prize in every show in which it was entered. Prize sheep and cattle on the C.P.R. experimental farms in the West are doing a great work in improving stock in the Prairie Provinces.

Throws a Wicked Quoit

Joek Bell throws a heavy quoit—the heaviest used by any quilter in Canada—it weighing 18 lbs. He will compete at the Highland gathering at Banff against the best in Canada and uphold the honor of Coleman, which in years past was proud to boast of a championship team. Some practice games have been played at the pitch behind Distributors Ltd. warehouse, the rendezvous of the curlers for several years.

On Labor Day Mr. Bell will enter in the scratch handicap quoit emblematic of the championship of Alberta, being held at the Dominion track and field championship meet at Banff. Over 40 quoit experts are expected to match their skill at Banff, each player using his own weight quoit to throw to a pin 18 yards distant.

Death of Mrs. Petrunik

After an illness of several weeks, Mrs. Mary Petrunik died in Coleman hospital on Thursday afternoon, aged 35 years. She was born in Czechoslovakia, and lived here for 17 years. The funeral service was held on Sunday afternoon at the Holy Ghost church, Rev. Fr. Lehman officiating, burial taking place in the Catholic cemetery.

Forest Fires in B.C.

Dense smoke from forest fires in British Columbia has been drifting over the Crow's Nest Pass during the week, but the nearest fire reported was at Coal Creek, an unconfirmed report stating that six dwelling houses and a fan house were destroyed. An east wind this morning gives hope that rain may come and lessen the danger of further outbreaks.

Sleighs and Snowshoes

Sleighs and snowshoes were the sole means of transportation for the Emil Jannings unit from the Paramount studios in Hollywood during the filming of "Betrayal" which will show at the Palace theatre. The outdoor scenes were taken at Lake Tahoe, in the high California Sierras, where snow and ice encourage winter sports for many months of the year.

Mercoal Welcomes

Hurdman McLeod

A dance and reception was given in the community hall on Mr. McLeod's return from Coleman after an absence of several months, states a correspondent at Mercoal. He seemed quite at home and was glad to renew old acquaintances.

The music supplied by Andy McQueen's orchestra was of the usual snappy variety and was enjoyed till the early hours of morning. Refreshments were served at intervals during the dance.

Local News

Mrs. J. A. McLeod and children returned last week from a month's holiday at their cottage at Seba Beach.

Robert Holmes left on Saturday night for two weeks holiday, part of which will be spent in British Columbia.

Mr. and Mrs. Geo. Derbyshire spent a holiday motoring to Banff, and return. The dust on the roads takes a great deal from the pleasures of traveling.

Mrs. Russell Ferguson has purchased the confectionery store of Mrs. Kerr. Mr. and Mrs. Kerr intend moving to the States early in September.

Mr. and Mrs. Louis Hanson of Estevan, Sask. visited Mrs. Halliwell on Friday on their return from a month's holiday in Vancouver, and left on the evening train for home.

O. E. S. Whiteside returned yesterday morning from a month's holiday in Eastern Canada. Mrs. Whiteside and daughter are staying at Sarina for a week or two.

A sum of money was found by Mr. Vaughn, commercial traveler. The owner may obtain same on proving property. His address is Blairmore.

B. Hall passed through here recently with his two sons Maynard and Kenneth, whom he was taking to Calgary after they had spent a holiday. Mrs. Hall and daughter Anne had moved to the city the week previously.

Mr. and Mrs. Desire Mary who have lived here for seventeen years, have left for Calgary, where they have decided to live. Mr. Mary came here from Glace Bay, N.S., in the early days of the town. His son, Fernand Mary, and wife, have also moved to Calgary.

Sheep Are Thriving

The 1500 or more sheep from Lethbridge which are grazing in the vicinity of Crow's Nest Mountain, in charge of James Walker and assistant, are doing fine, as there is quite an abundance of good grass, despite the dry weather. The grazing land has an altitude of over 5,000 feet above sea level, so that it is cooler by several degrees than at lower altitude. Recently two tons of salt stored in a log building for the sheep were destroyed, together with some harness. The fire was caused by some prowling boys, who were seen at the camp a few minutes before the fire broke out, but who escaped into the woods.

Frank Celli brought from his farm at Creston a fine bunch of cherrys, which were on display in his store. It has been an exceptionally good year for cherries. An irrigation system is to be developed which will greatly increase production in that district.

192d Battalion Members Will Hold Meeting

A meeting of ex members of the 192d Battalion C.E.F. will be held in the council chamber on Mon. Aug. 19, at 7:30 p. m. Pete Smith is calling the meeting. Companies of the 192d were recruited from Coleman, Blairmore, Hillcrest, Bellevue, and Pincher. The object of the meeting is to discuss the matter of eastern funds \$200 held in trust and as this has been drawing interest since the battalion went from Sarcee overseas. It will be considerably more. It is for deciding what shall be done with this trust fund that the meeting is being called. The trustees are Joe Montalbetti, W. J. Bartlett and Angus McDonald.

Blairmore Elk Lodge contributed \$50 towards the Wainwright fire fund, and Coleman Lodge \$25.00. This was forwarded through the City of Calgary fund which amounted to over \$2500.00.

Culpable Negligence

It is becoming, to an ever increasing extent, one of the responsibilities of governmental authorities to protect people against themselves, not only for their own sake, but for the sake of others whom, in one way or another, the first named danger. One of the latest developments in this direction is joint action by the Dominion, Provincial and municipal authorities to lessen the possibility of accidents at level railway crossings. Such crossings are always dangerous, but with the advent of the motor car, and the speed mania of reckless drivers, the death and accident toll has mounted alarmingly.

In nearly one thousand accident cases reported to the Board of Railway Commissioners during the past year, there was danger of loss of life or damage to property because of negligence at highway-railway level crossings. Of these accidents 369 were reported on the lines of the Canadian National system, and railway officials have carefully classified these. It was found that more than forty per cent. of the accidents were caused by some form of downright negligence on the part of the motorist.

Of the huge total of accidents, no less than 325 were cases where vehicles broke or damaged crossing gates which had been lowered; 23 where drivers ignored signals and drove right through gates; 36 cases where drivers passed right ahead under gates which were in process of being raised or lowered; seven cases where drivers on crossings opposite gate which had been lowered; five cases where drivers under the influence of liquor crashed into gates; while three accidents were due to pedestrians climbing over or under gates.

In other words, all these accidents were the result of a wilful disregard of the means of protection provided by the railways. But in their insane desire for speed motorists were responsible for a large number of accidents which were the outcome of what is classified as "inexplicable negligence." Some of the almost incredible performances of careless and reckless drivers are listed as follows:

Forty-four motorists drove into the sides of moving trains.
Thirty-eight drove into the sides of standing trains.
One driver parked on the railway lines while he had a sleep.
One tried to drive between two railway cars while switching. He was unsuccessful.
Twelve parked on or too near the railway tracks.
Seven went for a drive along the railway tracks—they met express trains.

One driver left his car on the tracks to search for something he had dropped on the road. When he returned there was nothing left of the car.
One driver stopped on the railway tracks to adjust his load.
Eleven found too late that their brakes needed re-lining.

This amazing record shows that not only are many accidents at crossings due to sheer negligence and in no way excusable, but they also serve to indicate the nature of the problem of "educating" drivers of motor cars guilty of such insane conduct. Warning signs and even physical barriers such as crossing gates are no sure guarantee against accidents due to such carelessness.

There appears to be but two methods of putting an end to such accidents. One is to do away with level highway-crossings altogether by carrying highways either over or under the railway tracks. This is a highly expensive business, and is not possible in a country of such immense distances as Canada. It can be done at crossings in all urban centres and at points where traffic is exceptionally heavy, and to this task the Federal Government through the Board of Railway Commissioners, working in co-operation with Provincial Governments and municipal authorities, has decided to bend its energies, the cost of obliterating these level crossings being distributed among these several governmental bodies.

The second course is to license all drivers of motor cars and to make it an offence for anyone to drive a car unless he or she has such a licence, and to immediately cancel the licence of any person found guilty of negligence, carelessness, and recklessness in handling a car. Such persons are a danger not only to themselves, but to the public at large, and in the public interest should be denied the right to drive such a potential engine of destruction on the public highways as the modern powerful motor car.

New Midget Auto

Will Be Sold Through Mail Order Houses For \$200

The New York Times says negotiations are under way for the large scale production of the new "baby" auto which would be sold through the mail order houses for \$200.

The car is the invention of James B. Martin, of Garden City, N.Y. The feature of the car is that it has no axles in the usual sense of the word, each wheel being independently mounted in the reinforced body. Rubber "aviator cord" is used in the

suspension of each wheel instead of a spring.

The new car has a wheel base of sixty inches, compared with 102½ inch wheel base of the smallest car now being produced in the United States. Mr. Martin said his invention will do 50 miles on a gallon of gasoline.

He declared he planned to have it shipped in a weather proof packing case with a hinged door which may be used as a garage.

Land Of Living Skeletons

Returned Traveller Tells Of Conditions In Famine Ridden District In African Congo

A land of living skeletons where those who did not die of hunger fell victim of disease or were torn to pieces by wild animals was described by Commander Edward P. Thompson, U.S.N., retired, on his arrival in New York, after spending six years in the famine-ridden Ruanda district in Africa.

Those survivors who had sufficient strength to gather up their belongings fled to adjacent districts. Commander Thompson blamed continued lack of rain and under cultivation of the small farms by the Bahutu tribe for the three-year famine.

A woman of Perth, Australia, has left her entire estate of \$10,000 to reduce Great Britain's national debt.

Receives New Honor

King George Confers Barony On Sir Robert Baden-Powell

King George has conferred a barony on Sir Robert Baden-Powell, entitling him to sit in the House of Lords.

Lieutenant-General Sir Robert Baden-Powell founded the organization of Boy Scouts and Girl Guides in 1908, after he had had a distinguished military career in India, Afghanistan and South Africa. He received various citations and decorations for his war services and many others came to him for his work with the Boy Scouts.

May Be Good Prophet

President of Tractor Organization Predicts Chain Farms

Milton M. Anderson, the president of a big tractor organization, predicts the coming of chain farms as the logical complement of chain groceries and other stores. Come to think of it, Mr. Anderson may be a good prophet.

Rightly or wrongly, farmers claim farming does not pay. Some say it does, but more say it doesn't. Perhaps it is a matter of habit with farmers to run down farming. There is always something wrong about crops. If it isn't one thing it is another. And, of course they never admit that they get the prices they ought to.

They try co-operative marketing and pools—and still "farming doesn't pay." The price of implements is too high—and so on.

After all, farming is a business, just as running a store or a factory is a business. But farmers are notoriously unbusinesslike. They conduct their affairs in a way that would make a dyed-in-the-wool business executive tear his hair with anxiety.

The time may come soon when farms are linked up as chain stores are linked up. There will be a central organization, financed by big business men, to take care of the business end of individual farmers will give up running their own farms and merely be the branch managers of farms owned by the chain.

They will have to run the farm, not as they have been used to running it according to their own ideas, but according to the scientifically devised methods of the proprietors. The owners will buy machinery, stock and seed in vast quantities. They will sell agricultural produce the same way. The farm manager will draw a straight salary and be relieved of his individual worries. Perhaps he will get a bonus from grateful directors.

It is a striking picture of the future. And quite a feasible one.—St. Thomas Times-Journal.

British Empire Games

E. W. Beatty, C.P.R. President, To Act As Chairman

E. W. Beatty, K.C., president of the Canadian Pacific Railway, has consented to act as chairman of the British Empire Games Committee of the Amateur Athletic Union of Canada. It was announced recently by Professor T. R. Louden, president of the Union. The meet will be held in Hamilton, Ont., in August, 1930.

Among members of the games committee are: Jos Louden, John James, general secretary of the A.A.U. of C., and the following chairman of the various A.A.U. of C. branches: Alberta branch, C. B. Chessman; Cardston; British Columbia, H. R. Davidson, Vancouver; Saskatchewan, J. W. Hamilton, Regina; Ontario, J. W. Hamilton, Toronto; and W. J. Blake Wilson, Vancouver, are members of the general committee.

Sweet and palatable. Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

Must Tell The World

British Manufacturers Can Sell Goods Only By Advertising

British manufacturers are losing trade in Canada and elsewhere not because their goods are inferior or because their prices are too high, but because they hide their light under a bushel. . . . Those manufacturers—and there are still too many of them in England—who think that when they have made a good article and quoted a fair price for it, they can wait for buyers to come to them are laboring under a fatal delusion.

Our potential customers in Canada and other Dominions cannot be expected to search out the British firms that might supply their needs. The mountain will not come to Mahomet, but Mahomet must go to the mountain. In other words, our would-be exporters need to make their goods widely known before they can sell them, and any lingering belief that advertisement is a luxury instead of a necessity must be eradicated from the British business mind.—London Daily Telegraph.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

Noted Speakers Will Be Heard

Will Deliver Addresses At Annual Convention Of Canadian Chamber Of Commerce

Right Hon. L. C. M. S. Amery, Hon. R. B. Bennett and E. W. Beatty will be amongst the speakers to address delegates to the annual convention, Canadian Chamber of Commerce, at Calgary and Edmonton, September 11, 12 and 13. All speakers will conform to the general theme of "Our Canadian Economic Partnership."

Mr. Amery will speak on the British Empire's share in the partnership; Mr. Bennett on confederation as a partnership; and Mr. Beatty on the role of transportation in economic partnership.

Other speakers will include Premier J. E. Brownlee, of Alberta; Hon. S. F. Tolmie, premier of British Columbia; Wm. Butterworth, president of the United States Chamber of Commerce; Sir A. W. Buchanan, owner of the Leithbridge Herald, who will discuss the share which agriculture takes; R. J. Hutchings, president of the Canadian Manufacturers' Association; H. W. Wood, president of the United Farmers of Alberta; Senator Gideon Robertson; John W. Daxos, editor of the Manitoba Free Press.

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a reliable remedy for worm troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worms cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

"Why do you pay so many visits but never ask anybody to your house?"

"You see, when I pay a visit I can go when I like, but when people visit me, I have to wait until they feel like going."

An adding machine was built in 1915 and exhibited at the Panama Exposition that had a capacity of 40 columns or within one unit of ten duodecimals.

HUNTER-MARTIN & CO., REGINA, SASK.

BRITAIN TAKES A FIRM STAND ON REPARATIONS

The Hague.—Deadlock again seems to threaten the vexed question of reparations. Great Britain is firm in her opposition to the "Young plan" evolved at the recent conference of experts in Paris, and France, Italy and Belgium seem equally determined to oppose any change in the scheme.

Right Hon. Philip Snowden, chancellor of the exchequer, outlined the British position and said his country had sacrificed its own interests to the utmost limits and would yield no further. Mr. Snowden made his statement before the financial committee of the 1929 conference of The Hague, gathered to consider the "Young plan."

While he hoped the other delegates would not regard it as offensive, Mr. Snowden said no reply whatever had been given to any of his arguments and none of his figures had been challenged.

The British Government, he said, did not accept the view that the plan was indivisible. If that were so there would be no need for a conference. Great Britain, he declared, would not accept the shares in the reparations annuities accorded by the committee of experts, she would not consent to the division of annuities into conditional and unconditional parts, and thirdly would not approve of continued deliveries in kind.

Mr. Snowden did not consider it a sacrifice on the part of France to give up something she would never have received. If sacrifices were to be talked about, he would have something to say about Great Britain's sacrifices.

Not a single country had made anything approaching the sacrifices made by Great Britain, he continued, but the British had never complained. Great Britain entered the war not because any of her material interests had been endangered, but to support treaty rights in defence of world security. She willingly did that, willingly sacrificed her blood not in her own interests.

No country had been left with Great Britain's war debt which now amounted to \$27,000,000,000 or more than double that of any other nation in the war. Excluding her debt to the United States, Great Britain's war debt was \$23,500,000,000. At the end of the war, Allies owed Great Britain \$10,000,000,000, of which France owed \$3,000,000,000 and Great Britain claimed only \$1,135,000,000 from that country. Italy owed \$2,535,000,000 and Great Britain only claimed \$390,000,000, but the Young plan reduced this to \$200,000,000.

The British taxpayer would be burdened for the next sixty years with the annual payment of \$300,000,000. The Young committee, Mr. Snowden argued, had no right to interfere with the Spa conference. Mr. Snowden contended the payment of reparations in kind by Germany affected Great Britain's export trade disadvantageously.

He emphasized his stand that the British delegation must leave the committee could proceed any further or discuss any other matters.

"I have behind me the unanimous support of my government," he added, "and of the House of Commons, irrespective of party, and I believe of all the people of Great Britain. I speak quite frankly when I say we cannot compromise on the matter. The House of Commons would never ratify the Young report in its present form."

Railroad May Be Sold

British Columbia Likely To Get Rid Of Pacific Great Eastern

Victoria, B.C.—The Pacific Great Eastern road may be expected to be removed from the public sector of this province within a very short time, Hon. R. P. Pooley, attorney-general said, speaking at the Esquimalt Conservative picnic at Saxe Point.

The Pacific Great Eastern is owned by the Government of British Columbia. A survey of the line and its territory is now being made jointly by the province, the Canadian National and Canadian Pacific Railways.

Negotiations Break Down

Tokyo.—Japanese despatches from Manchuria, Mongolia, where representatives of Russia and China have been discussing the situation arising from Chinese seizure of the Chinese Eastern Railway, reported that the negotiations had broken down.

British Airship May Be Zeppelin's Rival

Hope Machines Nearing Completion Will Be Much Faster

London, Eng.—Cabled reports from Lakehurst that the Graf Zeppelin's successful trip to America probably would be followed with establishment of a regular trans-Atlantic air line brought considerable speculation in London morning papers as to the possibility of British competition.

Greater speed or at least a cut in elapsed time of the trips was held to be a necessity for success of such a line and the hope was expressed that two British giants now nearing completion, the R-100 and R-101 would prove much faster.

Sir Dennis Burney, M.P., head of the company which built the R-100, in a talk with the Daily News opined that the Graf's time did not give margin enough over fast steamers and an airship to be successful must be able to do a trip in sixty hours outward and 48 returning. This would imply a cruising speed of 90 miles an hour.

Resignation Of Grain Board

New Members Will Be Appointed

Ottawa.—All the members of the Board of Grain Commissioners for Canada have resigned, their resignations to take effect August 15. On that date the names of the new commissioners will be given out.

Announcement of the resignation of the members of the grain commission was made by Hon. James Macmillan, Minister of Trade and Commerce, at the close of a cabinet sitting here.

Mr. Macmillan said that the new commission would make its own selections for the posts of assistant commissioners after it was appointed.

The resigning members of the grain commission are: Chief Commissioner L. H. Boyd, K.C., and Commissioners Matthew Snow and James Robinson.

The new board will also consist of three commissioners, but four assistant commissioners will also be appointed.

New Administration

Has Assumed Office

Took Oath Before Premier S. P. Tominé At Victoria

Victoria.—Right Hon. Francis Alexander Anglin, P.C., Chief Justice of Canada became administrator of the Dominion of Canada when he took oath of office in the office of Premier S. P. Tominé, of British Columbia here. Following the investiture, His Excellency issued a proclamation announcing his assumption of office as administrator of the Dominion. A second proclamation appointed Hon. Mr. Justice P. H. Mignault, of Montreal, as deputy administrator, invested with authority to sign documents of urgent character.

Eight Killed In Riots

Jule Mill Strikers In Calcutta Clash With Police

London, Eng.—Calcutta despatches to The Daily Mail said eight persons were killed and 20 injured in a fight between jule mill strikers and watchmen and police at Nalhati, 240 miles north of Calcutta.

A strike has been in progress for several weeks in the area after workers protested introduction of the sixty-hour week.

Forty per cent. of the looms in the Calcutta area are stopped, and about 12,000 workers made idle.

Patrol Ship Returning

Ottawa.—The Canadian patrol ship "Beothic," has reached the northern apex of her summer voyage with the Department of Interior's 1929 patrol. She reached the Roche Peninsula, Ellesmere Island, the most northern police post and post office, on August 3 and is now heading south, bringing out Inspector A. H. Joy, of the Canadian Mounted Police, who recently completed a northland patrol of 1,800 miles.

Drops Freedom Of Seas Issue

Toronto.—A special dispatch to The Mail and Empire from Washington says: President Hoover has dropped the freedom of the seas issue out of his domestic program, not only on the theory that it does not jibe with the Kellogg anti-war treaty, but because he believes naval parity with Great Britain is the only real guarantee of freedom of the seas.

British Atlantic Fleet

Now Becomes the Greatest Single Fighting Force in the World

London, Eng.—The Atlantic fleet becomes the greatest single fighting force in the world by the decision of the Admiralty to recall five battleships of the Queen Elizabeth class from Mediterranean waters to home ports and the Atlantic fleet.

The transference of the battleships, not only an important decision in distribution of the navy, but an entirely new departure in British naval policy, means the balance of power is removed from Malta and Gibraltar to the Atlantic.

The Atlantic fleet will consist of 14 capital ships, among them the two most powerful vessels in the world, the Rodney and Nelson, and the largest battle cruiser in the world, H.M.S. Hood.

The Queen Elizabeth vessels are approximately 30,000 tons, armed with eight 15-inch guns. These five will join the two Nelson class vessels, the Hood, the four Iron Duke battleships and the battle cruisers, Renown and Repulse, to make the most formidable fleet assembled on peace time duties in the world.

PER CAPITA SALE OF LIQUOR IS IN EXCESS OF \$10

Ottawa, Ont.—Liquor sales in 1928 through provincial government stores totalled \$107,694,384—rather more than \$10 per capita over all Canada.

Figures on the liquor traffic in Canada, covering sales in eight of Canada's nine provinces, were released by the Dominion Bureau of Statistics. Government control is in effect in all provinces excepting Prince Edward Island and Nova Scotia.

Total government revenue from the liquor traffic during 1928 amounted to \$72,560,201.

Of this amount, \$49,805,291 rolled into Dominion coffers, while the remainder \$22,755,201 accrued to the provinces. Actually, the latter figure does not include all profits of liquor control boards.

Less than one-third of Saskatchewan's total liquor board revenues appears under ordinary revenue, while more than \$400,000 distributed to municipalities does not show in British Columbia's.

Ontario and Quebec record by far the highest revenue totals among the provinces, their combined total aggregating two-thirds of the Dominion's aggregate. Ontario's revenue amounted to \$8,130,350, and Quebec's to \$7,000,000. Alberta with \$2,765,000, and British Columbia with \$2,752,229, are next, though the former total actually includes the revenue for 15 months.

No single province among the remaining ones showed a revenue for 1928 amounting to more than \$1,000,000. Manitoba, however, had a total of \$926,163, and the totals would have been much larger but that the breweries in that province are permitted to sell beer direct to permit-holders. Other provincial revenue totals are: Saskatchewan, \$600,000; New Brunswick, \$335,027; Nova Scotia, \$244,381.

Seven provinces are represented in the figures of gross sales reported by provincial liquor control boards: Prince Edward Island and Nova Scotia being omitted. Ontario's total is double that of the next highest, Quebec, amounting to \$48,995,591 of the Dominion aggregate of \$107,694,384. Quebec is next with \$24,229,624. British Columbia and Saskatchewan are the only other provinces whose sales grossed more than \$10,000,000, the former reporting \$13,956,910 and the latter \$11,708,554.

POPULAR FIGURE IN LONDON SOCIETY

Lady Lettice Lygon, daughter of the Earl and Countess Beauchamp, is a popular figure in London society. A feminine journalist, she is famed for her beauty and wit.

The "I'm Alone" Case

Eminent Counsel For Canada and United States To Act As Arbitrators

Ottawa.—Canada has elected Eugene Lafleur, D.C.L., LL.D., K.C., eminent counsel of Montreal, as Canadian arbitrator in "I'm Alone" case. The government of the United States has appointed Willis Van Devanter, associate judge of the Supreme Court of the United States, as its member.

Announcement of the selections was made simultaneously in Ottawa and Washington.

At the same time, the Department of External Affairs at Ottawa, announced that John E. Reed, K.C., of the Nova Scotia bar and legal adviser of the department, had been appointed Canadian agent in the case.

Counsel for the Dominion of Canada in the case are W. N. Tilley, K.C., of Toronto, and Alime Geffrion, K.C., of Montreal.

At the Department of External Affairs it was announced recently that there would probably be a lapse of some time before the arbitrators in this famous case actually open sittings. Counsel for both parties will have to get to work on the case, and there must be an exchange of pleadings, which may occupy considerable time.

Not until the preliminaries have been disposed of will there be a definite decision as to the place or places where sittings will be held. It has been taken for granted that some of the sittings at least will be held in Washington, but there is a possibility that there will be others, possibly some in Ottawa.

Plan New Air Route

Chicago To Puget Sound Via Western Canada Airways

Chicago.—Chicago will be brought to within 22 or 23 hours of Puget Sound cities along the northwest by a new all-star passenger route, Col. L. H. Britten, general manager of Northwest Airways, announced here. Britten said an agreement has been reached with Western Canada Airways, Ltd., which plans to operate along the southern Canadian border from Winnipeg to Banff and Victoria, whereby Northwest Airways will extend the line to Winnipeg and make connections with the Canadian company.

Noted Aviator Visits West

Winnipeg, Man.—Going to the Pacific coast on a trans-continental air tour, Captain J. H. Parkinson, noted Canadian pilot, of Montreal, Que., left Montreal, July 12, and has made 13 stops at various eastern cities and towns. En route to the Pacific coast, the Montreal airman will visit various prairie cities.

WON HONORS AT BISLEY MEET

The photograph here shows: (1) Lieut. Desmond Burke, Ottawa, who after a tie, lost the King's prize to Lieut.-Col. R. M. Blair, (3) Vancouver, at the empire meeting of the National Rifle Association, at Bisley, England; and (2) G. M. Ennis, C.S.M., Toronto, who won the Corporation of the City of London Cup.

Canadian Authoress Dead

Native Of Winnipeg Well Known To Public Few Years Ago

Chicago, Ill.—Mary MacLane, a successful author 15 years ago, died August 6, in a lonely room on the fringe of Chicago's black and tan belt. She was born in Winnipeg, Man., in 1881.

Author of "I, Mary MacLane," "Men Who Have Made Love To Me," and other romantic writings, Miss Mary MacLane had virtually disappeared. It was some time after her death before it was realized that she was the Mary MacLane whose own romantic adventures as set forth in her books had stirred the imaginations of the reading public of a few years ago. No one was at her bedside as she died. Her body was found by the proprietor of the small hotel where she had lived for the last four years. Her death, a doctor's certificate said, was due to natural causes.

Miss MacLane's retirement about six years ago was believed to have been caused by disappointment. It came after the sale of her new books had fallen off and financial reverses set in. Ill-health added to her troubles.

To Halt Liquor Smuggling

Federal Government To Co-Operate With U.S. In This Connection

Ottawa.—The Dominion Government is studying ways by which it can more effectively co-operate with the United States in the suppression of liquor smuggling across the border. The question was again brought before the cabinet at a recent session.

At the conclusion of the meeting, Premier W. L. Mackenzie King said: "Since United States have become active themselves in preventing liquor smuggling, it seems appropriate that further measures of co-operation should be considered by the Canadian Government." The prime minister indicated there might be an announcement in a few days of new regulations in the way of co-operation in suppressing the traffic.

ANGLO-EGYPTIAN DRAFT TREATY WELL RECEIVED

London, Eng.—British military occupation of Egypt, except for the Suez Canal zone, is abandoned, and other important and far-reaching reforms agreed to in the new Anglo-Egyptian draft treaty, details of which were leaked from Downing Street by the foreign office.

The proposals are a great advance on anything hitherto offered as settlement of the Anglo-Egyptian problem, being considered even more favorable than was the draft treaty of 1922 which was rejected by the Egyptian Parliament under the influence of the followers of the Nationalist leader Zaghloul Pasha. The agreement, which Right Hon. Arthur Henderson, foreign secretary, has negotiated with the Egyptian Premier, Mohammed Pasha Wahaboud, in general way follows the lines of the abortive treaty of two years ago, but makes important concessions to Egypt.

The British occupation will cease and British troops will be withdrawn to the Suez Canal zone.

The British Government will use its influence to induce other powers to consent to the abolition of the capitulations of extra-territorial rights and will assist Egypt to become a member of the League of Nations.

Further, Great Britain recognizes that the protection of foreigners in Egypt is a matter devolving solely upon the Egyptian government. The protection of minorities was one of the "reserved" points of the British Government; two years ago, but it is now admitted that this will be exclusively the concern of the Egyptian Government. The variations of 1927 will give Egypt a greater measure of real independence rather than ever before proposed.

The most important concession on Great Britain's part is the withdrawal of British garrisons to the canal zone. This was refused in the negotiations with Sarwat Pasha two years ago. Sir Austen Chamberlain, then secretary of state for foreign affairs, held out this as a possibility ten years hence.

Mr. Henderson in a note to Prime Minister Mahoud stipulates that these new proposals must first be approved by the newly elected Egyptian Parliament before they can be submitted to the British Parliament for approval and embodied in the treaty.

WOMEN IN SENATE QUESTION TO BE DECIDED SOON

Ottawa.—Brief comment on the reference to the Privy Council as to the eligibility of women to sit in the senate of Canada, was made by Hon. Lucien Cannon, solicitor-general, who returned to Ottawa after an absence of two months. While abroad, Mr. Cannon represented the Dominion in a number of cases before the Privy Council. Mr. Cannon explained that he did not appear before the Privy Council in connection with the reference to determine the right of women to sit in the senate. The case had been argued by Hon. Eugene Lafleur and Hon. N. W. Rowell, K.C.

"As the case is now pending, I cannot make any comment thereon," said Mr. Cannon. "I may say, however, that the question before the court is not whether women should be appointed to the senate, but whether, under the present wording of section 24 of the B.N.A. act, women may be appointed to that body. The principle of the case is the exclusion of women to the senate is not disallowed, but the government seeks from the highest tribunal in the empire the method whereby they could be appointed. The question was fully argued by the two learned counsel and judgment in the matter has been reserved."

The principle of the case is the exclusion of women to the senate is not disallowed, but the government seeks from the highest tribunal in the empire the method whereby they could be appointed. The question was fully argued by the two learned counsel and judgment in the matter has been reserved."

New York Opposing Italian For Mayor

Tammany Hall Fighting Election Of Congressman La Guardia

New York.—There are 392,225 foreign born Italians in New York City, and 410,721 in the state. The city is foreign born. That's one reason why Tammany Hall is snapping into action, deploying its forces and getting set for a devastating fight against Fiorella H. La Guardia, who was grudgingly handed the nomination for Mayor of New York at the Republican city convention.

Congressman La Guardia is a formidable campaigner. His verbal attacks can raise blisters like the bull whip. For months he has been indelictably at work, fanning up his Latin legions, from bootblacks to bank officials.

Congressman La Guardia is a formidable campaigner. His verbal attacks can raise blisters like the bull whip. For months he has been indelictably at work, fanning up his Latin legions, from bootblacks to bank officials.

New Manitoba Industry

Plant To Manufacture Explosives May Be Built Soon

Winnipeg.—The Manitoba Free Press publishes the following: "Rapid development of mines in the north of the province has led Canadian Explosives division of Canadian Industries, Limited, to purchase approximately 1,000 acres of land in the vicinity of East Selkirk, 18 miles north of Winnipeg, upon which to erect an explosives plant. The enterprise involves an investment of approximately \$750,000."

"Date of construction of the plant is contingent upon mining developments, but it is expected that work will begin early next spring and the plant will be producing before the end of 1930."

Making Trip To Coast

Ottawa.—Hon. Jean Knight, French minister to Canada, has left on a three-weeks' trip to the Pacific coast. The trip will mark his first visit to Vancouver since his appointment last October. The minister will stop off at Winnipeg, Regina, Calgary, Edmonton and Victoria. Hon. Mr. Knight will speak at a number of Canadian clubs and chambers of commerce in the west.

Willing To Leave Rhineland

London, England.—The Exchange Telegraph Company said it had learned on good authority British delegates to The Hague conference had made it clear to France and Germany, that in the event of their coming to an agreement between themselves in evacuation of the Rhineland, Great Britain would accept such an agreement unconditionally.

May Import Welsh Coal

London, Eng.—There is a likelihood of an increase in the exports of Welsh anthracite to Canada, amounting to 2,000 tons a year, as a result of the forthcoming visit to the Dominion of Right Hon. J. H. Thomas, Minister of Employment, according to The Manchester Guardian.

All products exported from Spain are to have a national label.

NOTES AND COMMENTS

Some complaint has been made that the common people are kept out of the forest reserve, while the millionaires from American cities are allowed to remain to enjoy whatever trout fishing there may be. Not having investigated the truth of this rumor, it must be taken just for what it's worth. But there is something to be said in defence of the "Yank." He may have spent a lot of money travelling here, and the longer he stays the more he will spend. And he came specially to fish, and possibly to enjoy the refreshments the country offers. It would be rather tough if he was turned out without being permitted to catch any fish. The natives can fish when the city chaps is cooped up in his office. They also enjoy privileges which under the 18th Amendment he has to resort to subterfuge to enjoy. There are many things which prove that Alberta is a far better place to live in than any state south of the 49th parallel, despite its boasts of being the land of the brave and the free.

People occasionally report seeing rattlesnakes in this country. But there are no records of people having been bitten by these venomous reptiles. Of course, the rattle may be just imagination, but the sight of snakes causes most people to shiver or shriek.

Man must work to achieve success, or even to earn a living. The artist must paint; the writer must write; the inventor must invent; all must do something persistently no matter what the nature of our daily employment is. It is one of Nature's laws, for if you do not work, then you just naturally go to seed, and become a bore to yourself and those with whom you come in contact. There is enough wealth in the world to provide a comfortable living for every human creature, but the reason it is not equally divided is that there is such a difference in the make-up of human beings. Too many think the world owes them a living. That is why there are so many "unfortunate victims of circumstances."

Efforts are to be made to interest the provincial authorities in establishing a park at Crows Nest Lake. Served by a splendid highway and a railway, and with water and electric power close at hand, besides having the advantage of local and tourist patronage in sight, it would be an ideal place for the purpose. A golf course would add to the attractions, so that its popularity would be enhanced. There is no more suitable place in the Crows Nest Pass, and Coleman Board of Trade should need no urging to get behind the proposal and give it their 100 per cent. backing.

People returning from long automobile trips are not enthusiastic of the joys of the open road under present conditions. Heat and dust rob motor travelling of its pleasure.

In the matter of clothes man is a slave to convention. Not so the ladies. If they feel like going without stockings, and wearing abbreviated skirts and sleeveless dresses, they just do it. It takes a temperature of 100 degrees to make a man leave off his coat. The ladies with their scant coverings permit the sun and the air to vitalize their bodies. Man still keeps himself encased in a suit of underwear, a shirt, vest and coat. No wonder he looks and feels fagged out before the day is half spent.

The ease with which any person can obtain a driver's license to operate an automobile makes the scheme an absolute farce. The only test of a person's ability to think and act quickly in an emergency is by practical demonstration. Thousands who are granted licenses if asked what would be the best thing to do in certain emergencies would possibly flounder in their answers as badly as they do on the road when confronted with an awkward situation. The worst feature of this indiscriminate granting of licenses is that the innocent suffer with the guilty.

When such a fine player as Miss Helen Wills says, "I've never let tennis be the thing that mattered most... Tennis is lots of fun—but it's only a sport," she expresses sentiments which all amateur sportsmen and sportswomen can follow to advantage, not only from the viewpoint of making sport worth while, but also as a means of improving their own playing.—Christian Science Monitor.

The decision of that British Columbian mining and smelting company to build a plant which will change the fumes (oh account of which it has paid a number of damage claims to farmers) into fertilizer (which it will sell at a profit to farmers) will lead some city dwellers to inquire when they may expect a system to be devised which will transform the clouds of soft coal smoke into a lily-white complexion powder.—Christian Science Monitor.

This new

Orthophonic
Victrola
only
\$175

It's the finest value
We have ever shown

Smaller and more compact than the famous Credenza, yet with all the go-get-throated tone and volume of Victor's greatest Orthophonic—and at less than half the price! Credenza tone, Credenza performance, matchless Credenza purity—for \$175. Imagine it!

Truly, the world's greatest reproduction of the world's greatest music is now within the reach of all—for this new Victor model has all the reproducing features which made the Credenza the standard of music beauty on five continents.

WORLD HAPPENINGS BRIEFLY TOLD

Two Canadian girls, each 15 years of age, led the 1,600 candidates graduating as Bachelors in letters from the Sorbonne, Paris, France, it has been announced.

An amateur astronomer named Forbes, at Rondebosch, in the environs of Cape Town, has discovered a new comet. Photographs taken, it is reported, confirm this presence.

Karl Auer, Frieherr Von Welsbach, inventor of the incandescent gas mantle, died recently at his residence at Welsbach Castle, in Carinthia. Auer was also the inventor of Auer gas lamps and osmium lamps.

The recently proposed flight from Saskatoon to London, England, by the new northern route, has been postponed until next June, according to Ben Brozman, of Winnipeg, who is organizer of the venture.

The Prince of Wales received Lieut.-Col. R. M. Blair, Commanding Officer of the Seaforth Highlanders, Vancouver, B.C., at St. James's Palace, and congratulated him on his success in winning the King's prize at the recent meet of the National Rifle Association at Bisley.

The name of Wm. Birks, of Montreal, president of the Canadian Chamber of Commerce, has been added to the list of those who will represent Canada at the Kyoto, Japan, conference of the Institute of Pacific Relations. The conference is to be held in October.

The London Daily News says that it learns that the Royal family is somewhat anxious about the health of Prince George, youngest son of the King. The Prince left the navy because of his health and went into the Foreign Office. This was said not to have benefited him, but rather to have caused his present indisposition. The Canadian boy counts as the international jamboree are extremely well pleased at a gift of a totem pole from Lord Baden-Powell. The carving on the totem pole represents a red Indian and a beaver together, with a snake intertwining the pole. On the rear are the words "Friendship Jamboree, 1929, R.B.P."

Could Do Better

A small car collided with a motor-lorry, and as it was clearly the fault of the car driver, he said: "Well, all I can say is that I am sorry." "Oh," said the lorry driver, "is that all you can say?" "Yes."

"Well, then, you just listen to me!"

It is said that the newspapers of the United States and Canada annually use sufficient paper to grille the world with a strip 50 miles wide.

The paper made in one year would make a path a mile wide all the way around the world.

It is the business of a business man to see that his employees attend to his business.

"Why are you crying?" "My sister has measles and I can't go to school." "But that is not very bad." "But doctor says she will be better tomorrow."—Lustige, Blaetter, Berlin.

Guards Against Gas Explosion

New Invention Works Danger Signal and Pans Away Fumes

After the numerous gas explosions which have occurred recently in London, it was only to be expected that something would be invented to make this possibility of explosion a thing of the past. And now we hear of a little device which does away with any danger of gas escapes.

This wonderful little invention is not very impressive to look at, being just a little cylinder shaped, instrument only about seven inches high, which can be fitted wherever there is a possibility of leaking. But it only needs the very minutest escape to set this gallant little sentinel in action, when it works a danger signal, gets in touch with the nearest telephone exchange, and informs them in power of the exact locality of the escape.

Not content with this warning, the trustworthy little cylinder sets in motion an electric fan to keep away the fumes!

What more could one ask?

Edison Competition

Boy From Washington State Is Selected To Follow In Footsteps Of Inventor

Wilbur B. Huston, a youth from Port Madison, Wash., was named the winner of the Thomas A. Edison competition for choice of a protégé and follower in the footsteps of the inventor.

The forty-nine contestants—one from each state and the District of Columbia—were lined up on the lawn of the Edison home in Llewellyn Park as the announcement was made by Dr. S. W. Stratton, president of the Massachusetts Institute of Technology, who was chairman of the committee of judges.

Dr. Stratton was high in his praise of the boys, who participated in a gruelling examination on subjects ranging from morals and ethics to science.

Indians Have Protested Against Bay Railway

York Factory Braves Say It Will Affect Fur Trade

One of the most unique protests ever made to the building of the Hudson Bay Railway has come from the Indians at York Factory. During a recent two days' "talk" of the council, which is held annually after treaty payments, the paying agent was officially requested to stop "these people" building a railway to Churchill, because it will affect the fur trade in the York Factory region.

The request was made with all solemnity, and the paying agent was against quite a problem, according to the version of the affair which has reached The Pas. However, the agent told his red-skin friends that there was little chance of the tracks to Churchill being torn up for their sake, at the same time assuring them that the government would not allow them to starve on account of a fur shortage.

The Indians accepted the agent's promise that he would do all he could for them, but they are far from being pacified about the Bay railway.

The York Factory tribe claims that the white people living at Churchill will stop white foxes from coming further down the coast and thereby the chief standby of their fur catch would be cut off.

The protest of the Factory Indians has caused discussion in the north and has again raised the problem of further aid to the Indians in times of stress. The fur catch has been light all over Manitoba in the past few days, and several of the Indian tribes have been in distressing circumstances.

Voyage To the Antarctic

Famous Vessel Of Capt. Scott, "The Discovery," Starts South Again

Equipped with the latest gear, the good ship "Discovery," famous vessel of Captain Scott, left the East India Company docks at London, England, recently, on another voyage to the Antarctic. Her first destination is Cape Town, where Sir Douglas Mawson, commander of the expedition will join the vessel.

Sponsored by the British, Australian and New Zealand Governments, the expedition will continue the scientific investigation of the south polar regions, begun in 1911. Sir Douglas is a noted geologist with much experience in Antarctic exploration—he was with Sir Ernest Shackleton in 1907, and led the Australian expedition of 1911-14.

Predicts Toolless Race

A prediction that man will be without toes in 500 centuries was made at Buffalo, by Dr. Albert Johnston, of Chicago, in a scientific session prior to the opening of the National Convention of Chiropractors. Hard pavements and close fitting shoes are causing the loss of the arch in the foot, and for modern purposes, a solid stump with a single hinge will survive, he said.

The "Horse" Won

An unknown writer sent a play to Dumas asking the dramatist to collaborate with him, Dumas wrote back in a rage. "How dare you propose to yoke together a horse and an ass?" By return post came the author's reply, "How dare you call a horse?" Dumas was so much impressed by this ready wit that he asked for the play again.

Ancient artists obtained their pigments chiefly from the rocks and earth.

FREE! FARM AND STOCK ACCOUNT BOOKS

This valuable book was compiled to advertise CHARLIE'S OVERHAUL—the best farmer's overhauls in the world. One farmer said: "I would not take 10 dollars for his book. Write for yours today." Hamilton Carhart, Manufacturer, Ltd., Toronto Over 100,000 Sold.

Saved His Pennies

Man Had Nine Bags With 58,850 Pennies To Purchase Car

John Jacobs, a garage owner, staggered into an automobile agency at Bloomfield, N.J., under a burden of nine heavy bags and demanded delivery of a Ford automobile he had ordered previously.

The dealer looked questioning at the nine bags which James heaved upon the counter with a sigh of relief.

"There are 58,850 pennies in those bags," Jacobs said in explanation, and if you don't believe me, count them. I've been saving those pennies for four years and I said if I ever got enough of them together I'd buy one of your cars."

There were 58,850 pennies in the bags, so Jacobs drove away in the car.

Recipes For This Week

(By Betty Barclay)

SHEPHERD'S PIE

On a well-buttered pan place mounds of left-over mashed potato which has been mixed with milk to right consistency; cut left-over meat or fish into small pieces, combine with equal amount of medium cream sauce (2 cups milk, 4 tablespoons butter, 4 tablespoons flour).

If there is any left-over gravy, mix with milk to make right consistency. Add 2 cups left-over meat or fish. Onion, green pepper or pimento may be added for better flavor. Pour around the mounds of mashed potato. Bake in a moderate oven until well browned. Garnish with parsley. If desired, the dish may be lined with potato and filled with creamed mixture.

An economy dish is one in which left-overs are used, or that may be prepared with inexpensive ingredients. Try the following. Even though you are wealthy, you will appreciate the flavor:

POVERTY PUDDING

6 cups whole milk.
1/2 cup rice.
1/2 cup sugar.
1 teaspoon salt.
1/2 teaspoon nutmeg.
1/2 cup raisins.

Put all together in a buttered pan in a moderate oven. Stir frequently at first, and then occasionally. Bake 2 hours. Should be creamy. Better cold than hot.

Host: "Just another wee drapple afore ye gang awa', Sandy."

"Na, na, na, Sandy, 'I tak nae mair. I'm in a new house, and I'm no' very weel acquaint wi' the stair."

SUNDAY SCHOOL LESSON

AUGUST 18

THE RETURN FROM CAPTIVITY

Golden Text: "Jehovah hath done great things for us, whereof we are glad."—Psalm 126, 8.

Lesson: Jeremiah 29:10-14; Ezra 1:1-11; Psalm 126:1-8.

Devotional Reading: Psalm 124.

Explanations and Comments

The Proclamation Of Cyrus, Ezra, 1:1-4.—Cyrus is called king of Persia because he was of Persian descent and Persia was the most important of his conquests; originally king only of Elam, he conquered Media, Persia, Lydia and then Babylonia. It was in the first year of his reign in Babylonia that God stirred up his spirit to the gracious thought of allowing the exiled Jews to return to their own land. Cyrus' own ulterior motive was, no doubt, to secure the gratitude of the Jews and to build up in Judea a friendly border nation between himself and the Egyptian power.

By heralds and by written official documents Cyrus sent a proclamation throughout all his kingdom—as far as Media, Josephus adds. It was his policy to claim the favor of the gods of every people, and he began his proclamation thus: "All the kingdoms of the earth I, Jehovah, the God of heaven, given me; and He hath charged me to build Him a house in Jerusalem, which is in Judah" (See Ezra 6:3-5). "For an outsider he came to a wonderfully sure understanding of the sort of justice that would be pleasing to the Lord of the Jews."—F. J. McConnell.

The case of the Jews to return was religious rather than patriotic; the restoration of the temple was their main object. Cyrus did not order their return, he merely decreed that they might return and build the house of Jehovah. And he decreed that the native Babylonians as well as the Jews who remained should help in returning Jews with silver and gold, and with goods, and with beasts, as well as with voluntary gifts for the temple.

The Response To The Proclamation, Ezra 1:5-11.—The majority of the Jews preferred to remain in the land of their exile, but the hereditary rulers of the tribes of Judah and Benjamin (some also from Ephraim and Manasse) of the tribe of Judah and Benjamin, and their neighbors strengthened their hands with gifts, as Cyrus had directed.

Co-Operative Wool Growers

Heavy Consignments Expected This Year From All The Provinces

"This is going to be a heavy consignment year for wool from all provinces," said H. J. Tidale, of the Canadian Co-Operative Wool Growers, upon his return from an extensive tour of the west. After a month in the principal sheep raising areas, Mr. Tidale estimated that the total of western shipments to the Wool Growers this year will amount to about 2,800,000 pounds divided as follows:—British Columbia, 400,000; Alberta, 3,500,000; Saskatchewan, 600,000; and Manitoba 300,000 pounds.

The Chinese land covers one-quarter of Asia, from the Pamir mountains to the Pacific, and from Siberia to India.

The barking of a dog can be heard at a height of four miles.

UNIVERSITY OF MANITOBA

WINNIPEG

Offers, among others, the following Courses:

Through its FACULTY OF ARTS AND SCIENCE courses leading to the degrees of B.A. (Hons.), M.A., and B.Sc., including B.Sc. (Pharm.), and B.Sc. (Agriculture) and B.Sc. (Education). Through its FACULTY OF ARCHITECTURE courses leading to the degrees of B.A. and B.Sc. (Hons.). Through its FACULTY OF MEDICINE courses leading to the degrees of M.D. and B.Sc. (Hons.). Through its FACULTY OF AGRICULTURE AND HOME ECONOMICS courses leading to the degrees of B.A. and B.Sc. (Hons.). Through MANITOBA LAW SCHOOL, courses leading to the degrees of LL.B. For terms of admission, details of courses and other information, apply W. J. SPENCE, Registrar, University of Manitoba, Winnipeg.

Uses Canadian Hut

King George Often Visits Building Erected By Ex-Service Men

Those Canadian ex-service men who were stationed in the vicinity of Windsor Castle during the war and who were responsible for the erection of the Canadian Hut on the edge of the Castle Gardens, learn with satisfaction of the unalloyed delight which is being derived from the structure at present.

The hut owes its origin to the spirit of boredom which afflicted a number of Canadian soldiers who were recuperating from wounds and illness at Windsor. Tired of doing nothing, they conceived the idea of building a log hut on the Castle estate as a reminder of their stay in the district. The idea was approved and the necessary timber placed at their disposal in the forests.

Today the King is using the hut in his recuperation, but Princess Alice is a regular visitor of the hut and largely as her playroom. In the afternoon she holds imaginary tea parties there, and the King and Queen several times have "casually" called upon her for a cup of tea.

Recipe For a Delicious Uncooked Salad Dressing

To add tastiness to the salads and green vegetables which are both cheap and healthful at present, the following salad dressing recipe is much preferred.

2 eggs beaten until light.
1 teaspoon salt.
1 teaspoonful mustard.
1 cup vinegar.
1 can Eagle Brand Milk.

Beat vigorously all the ingredients except vinegar and 15 minutes. Add vinegar, stir well and set aside for a few hours to thicken. This dressing will keep for weeks.

Quebec Had Snow in June

Five different snows reported snow in the month of June, The Gouin dam in the Lake St. Peter region headed the list with a two-inch fall during the 30 days of the month. Theford Mines ranged to the other extreme, for, in addition to recording traces of snow, it also registered the hottest day of the entire month, the mercury soaring to 96 degrees on June 20.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical science has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays, are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. But as a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a marked beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, poultry raising, and poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and in now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100 % Sunlight Send for booklet "WINDOLITE"

In the best package—Clean, bright aluminum

The Singing Fool

By HUBERT DAMER
Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Marcus, the famous Broadway producer, takes a party of four to Blackie Joe's New York night club. Al Stone, Blackie's chief comedian and singing waiter, is desperately in love with Molly, the ballad singer, but she scornfully rejects him. Then she goes to the Marcus table and tries to ingratiate herself with the great producer. In a despairing effort to touch Molly's heart Al goes on the floor and sings a love ballad he has written for her. The song is a sensation and Marcus orders Al and offers to buy it. Meanwhile Molly has made up to Al and the latter refuses to let the song unless Molly is allowed to sing it as a headline in a Marcus revue. Marcus consents. Grace, the cigarette girl, who is deeply in love with Al, is in the background.

CHAPTER VIII.

As Al heard Marcus's words he turned quickly and beamed on Molly. He realized he had won—Marcus would not only take the song, but he would make Molly a star. Tears of excitement and gratitude filled Molly's eyes. After all, she was not a woman of stone; she did appreciate the gallant stard singing water had made in her behalf.

Now Al became aware of a clatter behind him. In front, and all around. The crowd, saw him at Marcus's table and refused to be cheated of its encore. The applause was deafening, the customers were pounding on the tables, and their voices came in monotonous, insistent, rising chants, "We want Al, we want Al, we want Al!"

Al rose and looked around. "You'll have to give them another," said Marcus, smiling. "Have you any more songs ready?"

"Yes, I have others," Al replied. Then he saw Blackie approaching. "Can't you give them something else?"

Al nodded and Blackie advanced to the center of the floor.

"Ladies and gentlemen!"—his powerful voice filled the room—"Mr. Al Stone, the world's premier singing waiter, is going to entertain us with another number of his own composition in response to the insistent demand. I wish to thank you in behalf of Mr. Stone and the club for the rousing reception you have given him."

Again Al advanced to the piano, drew from his pocket a number of ballads, and selected "I've Got a Rainbow Round My Shoulder." Could he put this one over too? Yes, he was sure he could—so quickly is self-confidence born as soon as success is once achieved. And, true to his feeling, he swept through the song to another triumphant conclusion, while Molly's eyes remained fixed on him in rapturous adoration.

Now the night was ended at Blackie Joe's—Marcus and his party had gone and the other customers had vanished too. Waiters were hurriedly pulling chairs on tables, scrub-women appeared

Grace rose and moved listlessly toward the door.

"Thanks for taking an interest, Blackie. See you tonight. So long." "So long," Blackie looked after the singing little figure that was usually so little and vibrant with vitality. He shook his head sadly.

Grace, passing through the service corridors, heard voices—the voices of Al and Molly. They were talking in Molly's dressing room. She did not mean to listen, yet she stopped as she heard Al say enthusiastically:

"We can't lose, Molly. Marcus will sign us up tomorrow and we'll move over to the bright lights and the big money. Then we'll get married. That will be the happiest day of my life, darling!"

"Yes," came Molly's eager voice, "we'll get married and we'll go to the very top. Al, I've always known you had it in you. When I heard you sing tonight I was sure!"

The faint flicker of an unbelieving smile crossed Grace's face, but she made no sound. Then came Molly's voice again:

"We'll leave this dirty hole cold—right away—tomorrow."

At this, Al paused. Then he remonstrated.

"So soon, Molly? That wouldn't be fair to Blackie. He's done a lot for you and me. It's a true lot of quitting tonight, but that was because I believed you didn't love me. And I couldn't stand the thought of staying. Now its different; let's give Blackie some notice, he square with him the way he's been with us. After all, he's had faith in both of us."

"Oh, all right," agreed Molly grudgingly, "but I hate this tough place."

Suddenly Grace ran in the other direction through the corridors, across the deserted cabaret room, down the dark, shabby steps to the sunlit street. Her heart was thumping madly and she wanted to get as far as possible from their voices. Her woman's intuition made her fear for Al's future with Molly; something in the girl's insensitive attitude and words horrified her.

She hurried along the narrow streets toward her lodging house in the Village, several blocks away. Her thoughts were full of Al and she loved for him; she realized that if she didn't reach home quickly she would burst out crying on the street. When she stood in her bleak, shabby, lodging house bedroom, and confronted her reflection in a mirror, she cried passionately:

"That girl's no good! She'll never make him happy! And, oh, I love him so I would have worked so hard to help him!"

Queer Ideas Of Sport

Some Men Think Of Wild Life Only As Something To Shoot

Some men have queer ideas of sport.

There was a classic cartoon in "Punch," once showing two Englishmen looking out of a window, and one of them remarked, "What a lovely day!" "Yes," said the other; "let's go out and shoot something."

Some men have an conception of the beauties of nature. To them trees and mountains are just trees and mountains—not a thing more than an animal is just an animal to be shot—not one of the most beautiful examples of the Creator's handiwork.

The Prince of Wales goes in for strenuous sports, but he is not particularly adapted to shooting.

Wild beasts must be kept within reasonable bounds to prevent them assuming dominion over man. But when appeals have to be made to save certain species of animals from extinction, because men kill for killing's sake, it is a telling indictment of those who call themselves "sportsmen."

As Itemized

The expert had been called in when the factory motor broke down. He took one look, made two taps with a hammer and stated it in perfect order. The owner was indignant to get a bill for \$50, and demanded an itemized account. He got this:

Total \$50.00
Tapping with hammer \$ 1.00
Knowing where to tap 49.00

A Poor Housekeeper

Mrs. Smith: Mrs. Brown, lend me a drop of vinegar?

Mrs. Brown: I'm sorry, but I haven't any in the house.

Mrs. Smith: What a bad housekeeper you must be. Whenever I come to borrow a bit of anything, you haven't any.

Spanish applause consists of a peculiar hiss.

Minnard's Liniment for Summer Colds.

Objections To Skyscrapers

Create Traffic Problems By Congestion and Shut Out Air

It is reported that skyscrapers of one hundred and fifty stories are contemplated by American architects, with colored stone which will merge in blues and pinks into the clouds. People looking up at them will scarcely be able to tell where the stone ends and the sky begins.

Chicago is said to be protesting against a building which, with its tower, will attain one hundred stories. The commissioner of buildings only recently revoked a permit to build one of sixty stories.

Skyscrapers are undeniably fine monuments to the skill of architects, but there must be a halt somewhere if city life is not to become intolerable. They have two main objections. One is that these vast structures house day workers to the number of ten thousand or more, and when they spring up in groups, which they have a habit of doing, they bring together in restricted areas vast numbers of people, sufficient to be the population of quite a large city, and create traffic problems that baffle the wit of man to handle.

The second is that the erection of these tremendous walls of stone, reaching to the clouds, shuts out the air and renders the atmosphere unpalatable to all those whose lot it is to spend their working days within those areas.

There is also a fire menace, although fireproof construction renders that a minor matter.

Still, there was a bad fire two years ago in the top of a skyscraper in New York which was in process of construction at the time, and there is something to be said for the point of view of conservative Old London, whose laws decree that no building shall exceed one hundred feet, because fire equipment is not competent to deal with fires at a greater height, and that human lives are endangered by tall buildings in such circumstances.

May Never Be Renewed

Harvesters' Excursion To West Is Likely Thing Of The Past

The harvest hands' excursions to the West will be discontinued for this year at least. They may never be renewed. For a series of good crops has brought a rush of labor-saving machinery to the prairies. And the "combines" that thresh as they reap have done away with a tremendous amount of manual labor on the farm.

And if the harvest hands' excursions have passed into history the newer generations of Canadians have lost a splendid opportunity to see Canada first.—Toronto Telegram.

SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand, the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any of these troubles may prove deadly if not promptly treated. During the summer the mothers' best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Okanagan Valley Fruit

Fruit conditions throughout the Okanagan Valley are promising. There has been some drought injury to apples and some hail damage, but on the whole the yield is expected to be a satisfactory one. Onions also are making a good yield.

A Remedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for doctors. Thompson's Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

The Man For The Job

The Department Manager: We'll have to fire that new salesman. He's asleep most of the time.

The General Manager: No, don't fire him. Send him up to the clock section. We can use him there demonstrating alarm clocks on him.

CORNS

Put Right Off No Pain

PUTNAM'S Corn Extractor

Trustworthiness makes reputation! Since the earliest gas engines turned their wheels, Eveready Dry Batteries have been known for their dependable ignition work.

Sealed in metal cases against damp or rain, Eveready Hot-Shots will stand any amount of exposure or rough handling without injury. Buy them for gas engine, tractor or marine motor ignition. Look for the name Eveready on each battery case. If it's not an Eveready, it's not a genuine Hot-Shot.

Little Helps For This Week

"Whoso trusteth in the Lord, happy is he."—Proverbs xvi. 20.

The child leans on its parent's breast. Leaves there its cares and is at rest; The bird sits singing by its nest, And tells aloud its joys and griefs. His trust in God, and so is blest. Neath every cloud.

The heart that trusts forever sings, And feels as light as it has wings; A well of peace within it springs. Come good or ill, Whate'er today, tomorrow brings, 'Tis His will.

He who believes that God's will always must be done plays not when this or that event arises, but ever prays that, more and more, he may come into harmony with it. And out of this constant prayer of the soul that desires not gifts from, but communion with the Giver, there comes a sense of trust.—Francis B. Hornbrook.

No Business Depression

Business and Industry Expected To Continue At High Level Throughout the Year

"In the early months of 1929 there were a number of factors in the Canadian business situation, such as the low price of wheat and the tightness of money, which seemed to portend at least a minor recession in business activity for the balance of the year, but, somewhat contrary to general expectations, business and industry have continued at a high level throughout the spring and early summer," say the monthly business review of the Royal Bank of Canada. "With the severe credit strain somewhat relieved and with wheat prices at a much more satisfactory level, there is no question, but that prospects for the remainder of the year have shown substantial improvement."

The confidence that profitable wheat prices will be obtained for the coming crop has done much to offset the gloom caused by the decrease in the size of the crop," says the report.

The trouble with most people who know a little is that they invariably tell a little more.

Minnard's Liniment for aching joints.

New Zealand Butter Trade

Dealers Plan To Supply Canadian Market All Year Round

New Zealand, having obtained a foothold for butter in Canada, is preparing to take further advantage of it. The Auckland Sun states that one of the largest dairy operators, who controls about one-third of the produce shipped from that dominion, is engaged in a scheme to control at least fifty-five per cent. of the output. It adds that alliances have been formed with Australian houses, that advertising has been arranged in Canada and the United Kingdom and that, "a recently-concluded agreement provides that New Zealand butter will be on the Canadian market all the year round."

NEVER wait to see if a headache will "wear off." Why suffer when there's always Aspirin? The millions of men and women who use it in increasing quantities every year prove that it does relieve such pain. The medical profession pronounces it without effect on the heart, so use it as often as it can spare you any pain. Every drugist always has genuine Aspirin tablets for the prompt relief of a headache, colds, neuralgia, lumbago, etc. Familiarize yourself with the proven directions in every package.

ASPIRIN
Aspirin is a Trademark Registered in Canada

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any drugstore.
